Regarding the involvement of Ghent university (UGent) in the Tempri accident investigation (HARSIA – EODASAAM project)

The Ghent University research team received approval by HARSIA to make their reports publicly available for the sake of full transparency. The Ghent University research team did not participate in the analysis of the accident itself, nor in the writing of the report as issued by HARSIA, and refrains from commenting on the contents and conclusions of that report.

Dr. Georgios Maragos and Prof. Bart Merci

Ghent University, Belgium
